The Ossipee Chapter, A. R. C. wishes to thank the members of the School Board for the use of the Ossipee High School not only for the nurse's office but for part of their annual clinics. Their courtesy is also appreciated in having the building open one evening each week for the Red Cross First Aid course, conducted by Dr. Francis J. C. Dube.

The interest and co-operation of the Rotary Club made possible corrective treatment for two pupils as well as furnishing milk last spring in the schools.

The parents' attention is called to the "tuberculin tests" given for the first time to the Ossipee School children.

Ossipee should feel proud of the condition of the school children's teeth—so many were found who needed no dental work thru examination by the dentist. The dentist has commented on this and on the interest and co-operation of the parents which have made this possible.

Again I wish to express my appreciation to those who have given so freely of their cars, time and efforts for benefit of the Nursing Service.

Respectfully submitted,
MARION W. DAVIS, R. N.

Those mothers, having children entering school next fall, can have the inoculation against diphtheria free at our coming summer clinic. This service to children in schools has been with-drawn so, if interested, see to this, this summer.

SUPERINTENDENT'S REPORT

I herewith submit my tenth annual report as superintendent of schools, it being the sixteenth in the series of such reports.

It is said that the public schools are the bulwark of American civilization. This being the case, schools and school organizations are not to be treated lightly. Our schools are doing well and the property is in good condition. Especially thorough work was done last summer on the rural schools where buildings were repaired and playgrounds improved. Special work should be done this coming summer at the Center building. If the building here cannot be enlarged, everything possible should be done to care comfortably for the increasing number of pupils who crowd the rooms. The schools have increased rapidly here until now we have 191 in rooms that should accomodate about 170, and it is evident that the condition will be worse next year.

The gymnasium has become a very much-used room for all kinds of activities. Classes from grammar and high schools recite here. Laboratory work is carried on. It is interesting to see in the biology classes the live specimens of white rats and polywogs. Manual training equipment is here for the boys, and here the rapidly growing orchestra meets for practice. It will be worth your time to come here at noon and see the gathering of those who bring their dinners. Certainly some provision should be made another year for serving warm lunches for these boys and girls.

Orchestra

The orchestra has had a healthy growth under the guidance and leadership of Phil A. Bennett. Members have been added until now we have a group of sixteen who help much in school activities. Appreciation is hereby expressed for financial aid rendered by the Rotary Club.

Athletics and Grading Project

Athletic activity is being wisely handled, and the teams this winter are winning with hard, honorable playing. Appreciation is felt for the time and effort put into training these teams by Mr. Bennett and Miss Collins.

Under the leadership of Mr. John K. Hill, chairman of the school board, fine work has been done in grading an athletic field back of the school building. This was accomplished by means of PWA money with a small percentage from local funds. Additional ground was also secured through the kindness of John K. Hill, Eva B. Loud, Clayton Bamford, Charles Thompson, Dr. Francis Dube, V. D. White, Perley Loud, Addie McIndoe, Frank Lord, Effie Lord and Gordon Wentworth, who gave money to purchase the land. Appreciation is hereby expressed of this work and it is hoped that the provision can be made to further enlarge the grounds and finish the grading.

High School

Under the leadership of Headmaster Hatch, the high school is becoming well-established by its second year on a four-year plan. Practically all graduates from the eighth grade in all our schools come to this school. There are pupils from Granite, Ossipee Corner, Water Village and West Ossipee, with tuition pupils from four different towns in the state. We need to increase our reference library during the coming year in order to give opportunities for the pupils to do a wider range of supplementary reading.

Health Work

The health work is still going forward under the excellent care of Mrs. Marion W. Davis, R. N. Parents and children have cooperated. Appreciation is hereby expressed for any financial aid rendered in the removal of defects. The following figures show something of the great amount of work which Mrs. Davis has given
